- Write down the names of the objects you found. Say each word as you write it for your children to see and hear. Do your children's names start with any of the first letters of the words you wrote down? Draw your children's attention to these.
- Let your children go on a treasure hunt. On a sheet of paper, write a list of six objects that you can hide around your home and draw a small picture of the object next to each word. Hide each of the objects in a different place. Then give your children the list and ask them to find each object, ticking off each one as they find it.
